paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Pages Number: 297 Publisher: Tsinghua University. Pub. Date :2011-04-01 version 1. Zhanggao Yu editor of computer network technology training for the principles of computer networks. computer network management and computer network simulation technology. important points. well 87 design training. covering the cabling infrastructure. the three operating system installation and configuration. build campus networks. remote network construction. advanced network management based on OPNET network simulation technology. Training design has a strong operational and targeted. less demanding on the experimental environment. Through training. to deepen the understanding of theoretical knowledge. to master the methods of computer network technology and application skills. guide students to apply their knowledge purposes. Computer network technology training as a professional science and engineering institutions of higher learning computer network supporting experiments and practical training course materials. training coverage and the difficulty to achieve and exceed the needs of network engineers to master the standards. so it is suitable for network training with the book. Contents: Cabling Basics Training an RJ45 network line with crystal head of the production installation and training two card set training three...

Reviews

A superior quality ebook and also the font used was interesting to read through. This is for all who statte there was not a well worth reading. I discovered this publication from my dad and i encouraged this pdf to learn.
-- Felix Lehner Jr.

It becomes an incredible ebook which i have at any time go through. It normally fails to charge excessive. Your daily life period will be enhance the instant you full reading this article book.
