This publication is really gripping and exciting. It really is basic but unexpected situations in the 50 % in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.

Matte Press, United States, 2008. Hardback. Book Condition: New. 384 x 259 mm. Language: English . Brand New Book. Making a quiet and cautiously hopeful statement about environmental protection, this spellbinding collection of photographs does not bombard readers with visual imagery or urgent calls for alarm. Instead it celebrates the ability of nature all by itself to enthrall and engage human sympathies. The photographs include many views of wildlife and wilderness, as well as scenes of human activity, and simple pieces of short commentary complement the images. A remarkable black-and-white portrait of a polar bear against a dark background is accompanied by a few sober sentences about its proposed listing as a threatened species, and a great picture of New York City and is used to praise the efficiency of high density: Manhattan uses less energy per capita than anywhere else in the United States. A resource section listing websites for organizations, green living, and environmental news and opinion is also included.
