SHOCKED: ADVENTURES IN BRINGING BACK THE RECENTLY DEAD

Current, 2014. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "A specialist in end-of-life care at the University of Pennsylvania, Dr. Casarett has produced a travelogue about as comprehensive as possible without actually dying. His guide to the process of hauling passengers back up the exit ramp is fascinating." New York Times "[Casarett] traces the colorful history of efforts to revive the dead with meticulous reporting and humor" Washington Post "An exciting, firsthand account of scientific research whose implications are relevant to every living person." THE FUTURIST magazine "Entertaining, informative, and at times, electrifying." Booklist "Casarett accessibly reveals the work being done that may enable us to sleep far more, and so travel far furtherin both place and timethan we ever dreamed." Publishers Weekly "With a keenly-honed sense of true curiosity and a killer wit, the author gamely goes from mortuary to museum and back to look deeply at how "dead" is maybe not really dead these days. He melds old-school myth with modern technology to see why lives are saved (or not), and his irreverent comments and hilarious observances give the title of his book a wicked double meaning. Death is a trip we'll all take, and some of us will be lucky enough to return with minimal souvenirs. If you're ready to laugh in the face of that, then reading "Shocked" should be your aim." Terry Schlichenmeyer, "The Bookworm" in The Killeen Daily Herald "A fascinating, well-written, and gripping book by a leading physician that takes readers through the incredible journey of resuscitation science. I recommend this book to anyone interested in learning about the new medical 'miracles' that are helping humankind fight death and preserve life." Sam Parnia , MD, author of Erasing Death " Shocked is by turns heartbreaking and...
