Statistical Applications in Criminal Justice

By Edward J. Latessa

Sage Publications (CA). Paperback. Book Condition: New. Paperback. 120 pages. Dimensions: 8.5in. x 5.5in. x 0.4in. This textbook is specifically designed to give criminology and law students the elements of social statistics. Using examples entirely from criminology, law and justice research, the authors begin with simple mathematical notation and manipulation and work up through: definitions of major terms reading of graphs, charts and tables theoretical basis of statistics, with discussions of probability, sampling and hypothesis testing. Only when the student has a firm mastery of these basic tools do the authors present some of the basic statistical techniques most commonly used in criminal justice research such as -tests, correlations, simple regression, ANOVA and measures of association. Sample problems are worked through in the text with exercises and a list of key terms concluding each chapter. This text can be used in teaching a methods course or as a supplement to any research-based class in criminal justice. Its self-teaching features will also make it useful for professionals who wish to brush up on their skills. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.

Reviews

Thorough information! Its this sort of good read. It is actually written in straightforward words rather than confusing. I am just delighted to let you know that this is basically the best book we have read within my personal existence and can be the greatest pdf for actually.

-- **Dr. Henri Crona II**

It is one of the most popular books. I am quite late in starting reading this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Camylle Larson**
